Subject: Reveiw & Comment - Upcoming Agenda Bill - PSA Amendment No 1 for GeoEngineers

Dear All,
Attached is an upcoming AB w/ Attachments for a PSA- Amendment No. 1 to GeoEngineers, Inc.; Currently GeoEngineers' is working with a \$20K PSA.

To proceed to the next step "Remedial Investigation Work Plan" to include, but not limited to, direct borings, and soil and groundwater sampling, etc the current PSA is increased by \$115,400; aggregate amount \$135,400 of the budgeted amount of \$181,500. The 2006 budget for Fund 308 "General Government Improvement" supports this Amendment.

If there are any corrections, please inform me of them by Tuesday, April 17th. I will then schedule the AB for Committee and Council Meeting.

Thank you in advance for your immediate attention and response.
